WESTMINSTER NURSERY

J. E. STONER, Proprietor

WESTMINSTER, MARYLAND

Planter's Special Price List-For Fall of 1917 and Spring of 1918

To our mail order trade:

We have a few facts to tell you, backed up by our millions of choice, healthy, vigorous, well grown and graded Peach, Apple, Pear, Cherry and Plum trees also Berry plants, California Privets, Barbery Thunbergi, and Asparagus plants, etc. Our stock has made a fine growth. You can't get better anywhere at any

price.

The best is the cheapest, is the verdict of old, experienced orchardistsby facts established by others. We ship direct. We are the lowest priced Nursery on earth for sterling quality. We attach Entomologists certificates to all

Nothing you can grow will give you the permanent income that comes from an

orchard.

Place your orders now. Make sure of your trees. Name kinds, grade and number wanted. We will reserve the trees until you want them shipped. We have to offer for the coming season 250,000 budded peach trees that can't

be beat for quality. See prices on next page.

Special Discount-We will allow a special discount of 5 per cent on all cash orders received on or before Oct. 1st; after that date 3 per cent discount for Fall shipment. 5 per cent discount before March 1st; after that date 3 per cent discount for Spring shipment.

Boxing and Packing Free-We box and pack all orders without charge. All orders are put up in boxes or bales which are lined with heavy paper to guard against stock drying out. The trees and plants are packed in moist excelsior and straw. This is expensive, but good packing pays—pays customers, pays us. We guarantee the arrival of stock in good condition.

Freight and Express Rates-Do not be influenced by the story of the agent who says that the freight or express on your order will bring our price up as high as his. If you will consult your railroad agent you will find that the freight rates frem Westminster to points east of the Mississippi range from 20 to 40 cents per 100 pounds. First class trees will average about one pound each. Therefore, at the highest rate, 40 cents for 100 pounds, it means that you pay less than one-half cent per tree for freight. Nursery stock is carried by all express companies at a discount of 20 per cent less than merchandise rates.

Misrepresentation of the cost of getting stock from us by freight or express is sometimes made by others. Remember, if you bought your stock delivered, or freight prepaid, the freight would be included in the purchase price. The cash discounts which we allow will, in many cases, more than cover your freight or

express charges.

Grading—We guarantee every tree to be up to the grade specified, or better. Many times trees are sold by height only. This, we believe, to be very misleading as we have seen trees which belonged to the second or third grade (if graded by size and calibre) sold for first grade, as they had the required height. We grade and sell our trees both by height and calibre, and believe this to be the only way that gives entire satisfaction to the planter.

Location-Westminster is located twenty eight miles northwest of Baltimore, on the main line of the Western Maryland R. R., running from Baltimore to Pitts-

burgh, which gives us good shipping facilities.

Our Soil is a deep limestone and rolling, and our nursery grounds lay high, which is just the kind to grow plenty of fibrous roots and form a good stem that

will support a tree when it is transplanted into the soil.

Shipments by Parcel Post cannot be larger than 72 inches including the length and circumference of the package. Weight must not exceed 50 pounds within the First and Second Zones—that is within a radius of 150 miles of the shipping point; elsewhere, not more than 20 pounds can be sent by Parcel Post.

Parcel Post. Trees not larger in size than 2 to 3 feet can be sent by parcel post prepaid, at 3 cts. per tree extra.

PRICES NAMED IN THIS PRICE LIST SUPERCEDE ALL FORMER QUOTATIONS

Special Prices on Large Orders. Special quotations on large orders will be given on application. When writing, tell us what varieties are wanted, the approximate number of trees of each variety, and the size.

Can't you arrange to visit our nursery and see how we grow our stock.

30 trees of one variety at 100 rates, 300 of a kind (or not less than 10 of onevariety) at 1000 rates, over 10 and not less than 30 at 10 rates, less than 10 at each rates. Please note where no 1000 rates are quoted that 100 rates govern. All stock nicely packed F. O. B. cars here, in good boxes or bales at prices named in price list.

TERMS:—Orders from parties without rating, billed cash before shipment or one-quarter cash with order, balance when stock is shipped. If all cash with order 5 per cent. off. No discount unless all cash with order. This price list is our salesman, and opens the way for every planter to secure our sterling quality trees at

the lowest possible prices.

2 to 3 ft, nice trees. A large stock of Elberta.

"2 to 3 feet, partly branched, about 5-16.10

I wish to call your special attention to the fact that every one of our large stock of peach trees are budded on Kansas and North Carolina Natural seedlings, the most hardy in the U.S. You cannot afford to overlook this important feature. Our trees are well grown, smooth and well rooted. Our prices are low, considering the quality. Let us have your order at once that we may reserve the varieties for you. Kinds marked (S) were collected and carefully selected by Mr. Charles K. Shank, of Smithsburg, Md. Notice about time of Ripening for Westminster, Md.

PLANT YOUNG, FIRST CLASS, HEALTHY TREES OUR APPLE TREES ARE ALL GROWN ON BEST IMPORTED WHOLE ROOT SEEDLINGS:

1000

ASPARAGUS-2 year Strong Plants.

5c each; 25c per doz.; 75c per 100; \$4.00 per 1000. Varieties: Conovers, Palmetto, Barr's Mammoth, Col. White. By Parcel Post add 1-2c per plant extra.

STRAWBERRIES

Any soil that will produce a good crop of corn is adapted to growing good Strawberries, but as they should be kept free from weeds, we believe it will pay to select land free from weed seed, even if it is not your richest land.

All plants of this class, tied 25 plants in a bunch; less 5 per cent if all cash with orders. Plants nicely packed on cars here. If by mail add 10c per 100 plants. PRICES OF STRAWBERRY PLANTS

We sell only trees we grow. This is for your protection as well as our own. Our trees always prove to be just what they are sold for.

NUMBER OF TREES TO AN ACRE

30 feet apart	each	way	50		10	feet	apart	each	way	345
25 feet apart	each	way	75		8	feet	apart	each	way	684
20 feet apart	each	way	110				apart			1,210
18 feet apart	each	way	135				apart			1,742
15 feet apart	each	way	205		4	feet	apart	each	way	2,723
11 feet apart	each	way	300		3°	feet	apart	each	way	4,840

RULE—Multiply the distance in feet between the rows by the distance the plants are apart in the rows, and the product will be the number of square feet for each plant or hill, which divided into the number of feet in an acre, 43,560, will give the number of trees in an acre.

DISTANCE FOR PLANTING

DISTANCE FOR PLANTING						
Standard Apples			feet each way			
Standard Pears and strong growing	Cherries	20	feet each way			
Standard Plums, Apricots, Peaches,	Nectarines	14 to 18	feet each way			
Dwarf Pears			feet each way			
Grapes	rows 8 to 10 fe					
Strawberries, for field culture			oy 4 feet apart			
Strawberries, for garden culture		1 1	to 2 feet apart	;		
Raspberries	rows 4 to 6	feet apart, 2 to	3 féet in rows	3		

SPRAYERS AND SPRAYING SOLUTION

We sell Sprayers and instruct kind of spraying and teach how and when to spray. We offer Lime Sulphur Solution, Arsenate of Lead, Soluble Oil, etc., at low prices.

SPRAYING CALENDAR

For information about insects, pests and plant diseases, write to the Experiment Station in your state.

Oyster Shell Bark Louse—Attacks apple mainly; use sulphur-lime spray when the leaves are off the trees. If this spraying is ineffectively done, apply kerosene emulsion or whale oil soap when eggs hatch.

San Jose Scale—Attacks nearly all deciduous trees; use sulphur-lime for spray

in the spring before the buds burst.

Red Spider—Attacks fruit trees and bushes; spray with sulphur-lime in the spring before the buds burst. This will kill the winter eggs. If the mite appears in summer, use kerosene emulsion, best adding one ounce of sulphur to the kerosene for each gallon of spray, or use sulphur-lime 1½.

Green Aphis—Attacks pear, peach, plum, prune trees, etc.; spray with sulphurlime in the spring before the buds burst. If the insects appear, spray with to-

bacco into the curling leaves.

Woolly Aphis—Attacks apple trees; use sulphur-lime, kerosene emulsion or tobacco for spraying, just before the buds burst. Spray with force. For summer treatment use kerosene or tobacco.

Slug-Attacks pear and apple trees; use arsenate of lead for spray when in

sects appear, or dust with lime, road dust or ashes.

Scab—Attacks apple and pear trees; spray with sulphur-lime 1½ just before the blossoms open and again while the last blossoms are falling.

BORDEAUX

Bluestone	6 р	ounds
Good lime	4 p	ounds
Water		allons

Dissolve the bluestone by suspending it in a sack in 25 gallons of water in a barrel. Slake the lime in another vessel, adding a little water slowly, and dilute to 25 gallons. Mix the two thoroughly. Even the best Bordeaux may scorch in rainy weather For double strength Bordeaux use twice as much bluestone and lime

WHALE OIL AND QUASSIA

Quassia chips	 8	pounds
Whale oil soan	 7	nounds

Soak chips twelve hours in eight gallons of water. Dissolve the soap in boiling water. Strain the quassia extract to remove the chips and add the soap solution. Stir thoroughly and dilute to make 100 gallons. This solution is used almost exclusively for the hop aphis. It is almost as effective without the quassia against other species of aphis. Soap powder or laundry soap may be used in the same proportion without the quassia for most aphides.

SULPHUR-LUME

Sulphur	pound
Good lime	pound
Water	gallons

First slake the lime in the cooking vat. When slaked add the sulphur and about one-fifth of the water, so that the mixture will boil easily. Keep it well stirred. Boil until the sulphur is completely dissolved, which should take less than one hour. Then add the rest of the water and the mixture is ready to spray. Use only the clear liquid. It should be poured into the spraying tank through a strainer. It may be used hot or cold. There are several ready-made sulphurlime washes which give good results when properly diluted. When mixed 1 part to 10 parts of water they usually correspond in strength to the formula above.

ARSENATE OF LEAD

Arsenate	\mathbf{of}	lead	 <i>.</i>	 	l pound
Water			 	 50	gallons

It is unnecessary to use it stronger. It is more reliable than Paris Green. It is especially useful where there is much rain. It sticks well and does not scorch. Mix well first with a small amount of water.

KEROSENE EMULSION

Kerosene	
Whale oil soap	½ pound
Water	. 1 gallon

Dissolve the soap in the water by boiling and add the suds boiling hot to the kerosene, away from the fire. The mixture is then to be agitated violently, preferably by pumping it back into itself with a force pump. After four or five minutes the mixture suddenly becomes creamy in consistence. If well made the cream will stand for a long time without free oil rising to the surface. Use one gallon of the emulsion to 12 gallons of water in spraying. One quart of soft soap or one pound of laundry soap may be used instead of the whale oil soap.

If Frozen when Received bury the package unopened in well drained ground or place it in a cool cellar, so that it will thaw out slowly and gradually without

being exposed to the air.

If they should appear Dry or Shriveled When Received, through delay in transit, or from any cause, take them from the package and plunge into a tub of water or bury the roots in the ground in an inclined position, so as to cover onehalf or more of the tops with earth, and then thoroughly soak with water, and then let remain for twenty-four hours or more, until they regain their fresh, plump appearance, when they may be planted.

Our Guarantee-While we exercise the greatest care to have every tree and plant true to name and are ready, on proper proof, to replace anything sent by us that proves untrue to label, free of charge, it is understood and agreed between purchaser and ourselves that we are not to be held liable for any greater

sum than that paid us for said trees that may prove untrue.

Time of Shipment—To the Fall trade, we will commence to ship trees as soon as the leaves are off and the wood ripe, and plants about the 1st of October and continue as long as the weather is mild. For the Spring trade, in most seasons, we can fill orders as early as February for the South, as late as May for the Northern customers. Always name date when you want stock shipped, but have it reach you before you need it. We endeavor to handle your stock in the best manner, pack it up nicely and give you good count.

When Best to Order—Order now, do not wait until you are ready to plant.

Your order will not be shipped until the proper time.

How Best to Remit—Remit by Bank Draft, Express Money Order, or Post Office Money Order on Westminster Post Office, Registered Letter, or stamps for the fractional part of a dollar. Payments invariably in advance.

Prices named in this list supercede all former quotations and are subject to

change without notice.

Claims for Deduction should be made within five days from receipt of goods. This special price list is our agent and the kinds and varieties of stock named herein are comprised largely of the stock we grow.
